 Mother or Father

Circle participant:

CHILD-CAREGIVER RELATIONSHIP

1. Read each of the three descriptions below (1, 2, and 3) and **circle** the number next to **the single alternative that best describes** how your child manifested his/her feelings in the relationship with the primary caregiver (e.g., mother, father, grandmother, other) when he/she was young.

During my child's growing up,

1	My child was somewhat uncomfortable being close to his/her primary caregiver; he/she found it difficult to trust the primary caregiver completely, difficult to allow him/herself to depend on the primary caregiver. He/she was nervous when the primary caregiver got too close.
2	My child found it relatively easy to get close to the primary caregiver and was comfortable depending on the primary caregiver. He/she did not worry about being abandoned or about the primary caregiver getting too close to him/her.
3	My child felt the primary caregiver was not close to him/her enough even though my child was well cared for. He/she often worried that the primary caregiver did not really love him/her or did not want to stay with him/her. My child was somewhat obsessed with the primary caregiver.

Even though you checked one, your child may fit all descriptions in different degrees. For each of the three descriptions, **please circle a number from 1 to 7** to indicate the extent to which your child fits that description.

During my child's growing up,

2. My child was somewhat uncomfortable being close to his/her primary caregiver; he/she found it difficult to trust the primary caregiver completely, difficult to allow him/herself to depend on the primary caregiver. He/she was nervous when the primary caregiver got too close.

Not at all fit (0%)	A little fit (10-20%)	Quite fit (30-40%)	Very much fit (50-60%)	Fit a lot (70-80%)	Almost complete fit (90%)	Complete fit (100%)
1	2	3	4	5	6	7

3. My child found it relatively easy to get close to the primary caregiver and was comfortable depending on the primary caregiver. He/she did not worry about being abandoned or about the primary caregiver getting too close to him/her.

Not at all fit (0%)	A little fit (10-20%)	Quite fit (30-40%)	Very much fit (50-60%)	Fit a lot (70-80%)	Almost complete fit (90%)	Complete fit (100%)
1	2	3	4	5	6	7

4. My child felt the primary caregiver was not close to him/her enough even though my child was well cared for. He/she often worried that the primary caregiver did not really love him/her or did not want to stay with him/her. My child was somewhat obsessed with the primary caregiver.
